Report of Planned Purchases of Health and Human Services

August 2004

The Report of Planned Purchases for Health and Health and Human Services contains a listing of various health and human services which state agencies anticipate purchasing from private providers over the next year. The listing represents 107 procurements totaling approximately \$107,500,000. The intent of this report is to provide interested parties advanced notice of possible opportunities to obtain state contracts. This report, along with the coordinated [Procurement Timeline for the Competitive Purchase of Services Method of Procurement](#) provides interested parties with tools to plan and participate more efficiently when competing for State contracts.

This report does not obligate State agencies to solicit these services or prevent State agencies from soliciting additional services as they may experience changes to planned expenditures after the report is public.

Procurements are listed by department and division (or administratively attached office) and contain information including service, approximate funding available, target population, geographic area to be served and anticipated contract dates.

For further information about particular procurements in this report, please contact the contact person for the specific procurement.

This report as well as the Procurement Timeline for the Competitive Purchase of Services Method of Procurement referred to above are accessible on the State Procurement Office website at www.spo.hawaii.gov, click “Procurement of Health and Human Services” and “For Private Providers.”
